Good things come from Sysco®

Sanitizing made simple, with the new **Complete® 360 Surface Sanitizing System**, you can create a custom hard surface wet wipe using your own sanitizer. This wipe & closed-bucket system helps operators prevent cross-contamination and minimize the spread of foodborne illness by properly applying the necessary amount of sanitizer to food contact surfaces and common touchpoints throughout your operation.

Features and Benefits

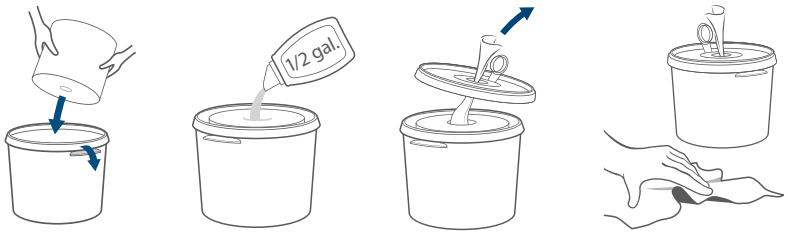
- Consistently retains higher sanitizer levels compared to cotton towels and microfiber cloths[1]
- Wipes maintain > 90% of the sanitizer concentration for up to 7 days[2]
- Compatible with a wide range of commonly used sanitizers[3]
- Reusable buckets have tight-fitting lids to reduce the risk of spills, splashes, and vapors associated with open buckets and/or spray bottles
- Cost-effective wipes are designed to properly apply the right concentration of sanitizer to the surface, ensuring operators are meeting or exceeding food safety guidelines
- One-at-a-time dispensing delivers a clean sheet with every use and helps protect unused sheets from contamination, reducing waste and controlling costs

Usage Applications

Complete® 360 Surface Sanitizing System is ideal for front and back of house uses in a variety of operations.

How to use your Surface Sanitizing System

Insert Roll | **Add Sanitizer** | **Thread Wiper** | **Sanitize**



[1] Tested with a variety of Quaternary Ammonium Compound (Quat) based sanitizers and generic terry cloth and microfiber towels.

[2] Quat sanitizer loss as a function of time for Complete 360 Sysco Imperial Surface Sanitizing System, cotton bar mops and microfiber cloths.

[3] If using a disinfectant, always check and follow directions on the disinfectant's label to ensure that additional steps, like a secondary rinse of surface, are not required for safe use. To determine compatibility of sanitizer or disinfectant solution with Complete 360 Surface Sanitizing System Wipe, read the EPA Master Label (PRIA Label), which can be located at: https://iaspub.epa.gov/apex/pesticides/f?p=PPLS:1
