CMSText

Company Description
CMSText helps restaurants put their advertising and marketing messages right into the palms of customers' hands! Our platform allows you to create a database of your restaurant's customers so promotions can easily be sent to their mobile phones.

Value:
CMSText is the most effective marketing tool while also being the most economical tool a restaurant can utilize. On average, our customers receive a $62 return on investment for every dollar they spend on our services. Approximately 98% of text messages are read by customers within 3-5 minutes of receiving mobile advertising - this leads to an increase in carry-out delivery orders, an average redemption rate of 20%-30%, and turns your slow nights into profitable ones.

Advantage:
At CMSText we understand that running a restaurant is a full-time job, which is why our concierge service manages all the work and details in setting up and sending out advertising messages so you can spend more time running your business. We're the only text marketing agency to offer the lowest-price and money-back guarantee, and since there are no long-term contracts, you can cancel your services at any time.

Product Offering:
Unlimited texting package for operators with 1 to 3 locations · concierge managed services · month-to-month subscriptions so you never have to lock into a contract.

Call 866-430-475, email info@CMSText.com, or visit www.CMSText.com for more information.

SYSCO EXCLUSIVE PRICING:
Sysco customers receive the **Unlimited Texting package for $69 per month** ($139 value), with a special pricing of **$39 per month for the first 6 months** of the Unlimited Texting package. **The one-time setup fee of $149 is also waived!**
